A deep understanding of your needs means we have every detail carefully considered.

Thermostatic Control

With Queenston's smart thermostatic control, you can personalise your preferred shower temperature and be assured of a constant temperature throughout your shower. The ease of enjoying your desired shower is only a touch away.

Innovative Heating Technology

Queenston's heating element is made up of a separated stainless steel water channel wrapped around the stainless steel heating tube and encased in one-piece cast aluminium for greater heat efficiency and longer lifespan.

Multi-Point System

Enjoy flexibility with Queenston's multi-point system which allows you to supply instantaneous hot water to one standing shower and a wash basin within the same bathroom.

Multi Level Safety System

Cuts off heating when water temperature reaches scalding level to ensure the highest safety for you and your family.

Pledge of Safety

Tested repeatedly for safety and compliance with Singapore safety Standard. We commit to keep you safe while giving you the luxurious shower experience.

IP25 Splash Proof

The internal circuitry of each heater is isolated by sturdy, splash-proof casing.

Automatic Water Flow Sensor

Safety feature intelligently activates heating only when water flow is detected.

Pressure Relief Device

Built-up pressure in the heater is automatically released for added protection and safety.

Durable Brass Diverter

Uses quality brass diverter for durability and reliability.

Luxurious Spa Rain Shower Set

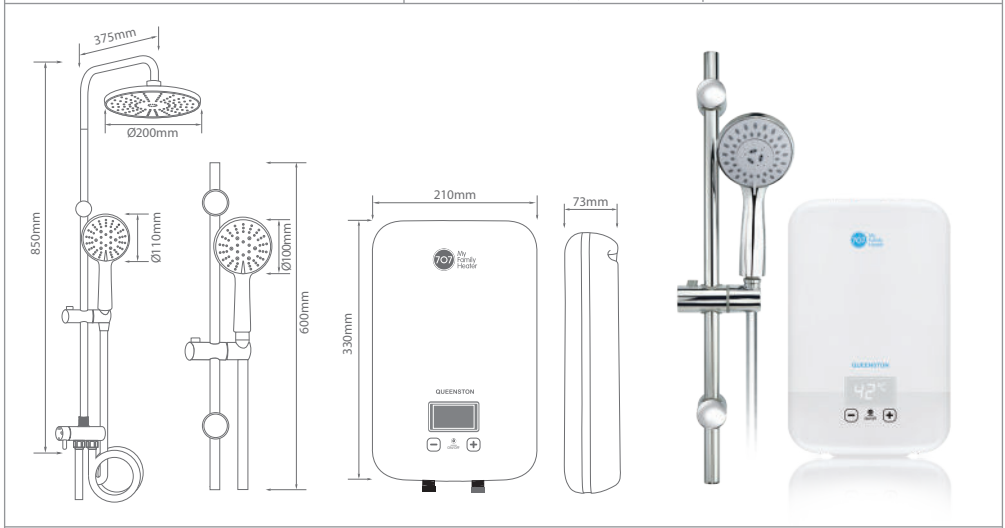

Be pampered with Queenston's luxurious spa rain shower set, designed to transform and elevate your shower experience.

Massage Shower Set

Each heater is equipped with a luxurious massage shower set for an invigorating shower experience.
