

## Technical Specifications

| 707 Luxton Electric Instantaneous Water Heater |                             |
|------------------------------------------------|-----------------------------|
| Power Rating                                   | 3.3 kW, 230 V a.c. 50 Hz    |
| Rated Pressure                                 | 0 MPa                       |
| Inlet & Outlet Water Connection                | 1/2" BSP                    |
| Minimum Water Flow Rate                        | 3ℓ/min                      |
| Recommended Water Flow Rate                    | 4 – 6ℓ/min                  |
| Minimum Inlet Water Pressure                   | 0.1 MPa                     |
| Maximum Inlet Water Pressure                   | 0.3 MPa                     |
| Recommended Inlet Water Pressure               | 0.1 MPa                     |
| Energy Efficiency Rating                       | 4 Ticks<br>ELS-CHG-WH250020 |
| Product Dimensions (L x H x W)                 | 190 x 338 x 91 mm           |
| Product Weight                                 | 1.6 Kg                      |
| Box Dimensions (L x H x W)                     | 210 x 630 x 105 mm          |
| Box Weight                                     | 3.07 Kg                     |
| Barcode                                        | 7777999102475               |

## Packaging Contents

|                                     |
|-------------------------------------|
| Electric Instantaneous Water Heater |
| HydroJet Ag+ Chrome Shower Set      |
| Chrome Stop Valve                   |

Electric Instantaneous Water Heater

## Reliability And Safety You Can Trust

Discover the pure comfort of showering with the 707 Briston. Equipped with powerful HydroJet Ag+ showerhead, double safety anti-scald protection and double pole residual current device (RCD), 707 Briston provides you and your family a safe and soothing shower.

Ag+ Silver Ion Technology

Normal Showerhead

Micro-Nozzle Showerhead

### HydroJet Ag+ Showerhead

Features Ag+silver ion technology that inhibits bacteria growth, and the micro-nozzle shower head design that delivers ultrafine water jet and powerful water pressure.

### Copper Class Tank

Features a reliable and durable copper tank.

### Double Pole Residual Current Device (RCD)

Cuts off power supply immediately when leakage current is detected.

### Pressure Differential Flow Switch (PDFS)

Safe and dependable flow switch that activates power to the water heater only after user turns on the water supply to the water heater.

### User Friendly Power Selector

Easy to use power selector with 3 power settings.

### Flow Rate Control

Achieve your desired water temperature by adjusting water flow rate.

### Double Safety Anti-Scald Protection

Double detection safety system cuts off power supply immediately when water temperature rises to scalding levels.

### Overheat Warning Indicator

Warning indicator lights up to alert you when water temperature exceeds normal range.

### IP25 Splash Proof

The heater internal components and parts are protected by a sturdy splash-proof exterior casing.

### Energy Efficiency Rating

Tested to meet Singapore's energy efficiency standards with a 4-tick rating.

### Pledge of Safety

Tested repeatedly for safety and compliance with Singapore safety standards. We commit to keep you safe while giving you the luxurious shower experience.
